**Subject:** RE: sewer maps

John,

Attached is a copy of the Buena Vista Township SSA map. You and I have spoken previously and you indicated that all Pinelands Villages and Towns would be in the SSA. **The Village of Collings Lakes (upper left hand corner of the map) is shown as a Village but not in the SSA.** This area contains several hundred homes on small lots and an Elementary School all serviced by septic systems. Although it is not currently being considered, from an engineering perspective the environment would benefit from a future package treatment plant in this area.

**Can you arrange to have this area included within the SSA?**

Thank you,  
Dave
