**RE: Proposal for engineering, surveying and environmental services
Replacement of Drainage System-Phase 1 – West Beach Road Area
Our File 8000.10**

Dear Mayor and Township Committee:

Based upon our discussion and recent conversations, Schaeffer Nassar Scheidegg Consulting Engineers, LLC (SNS) is pleased to present this proposal to you for surveying, and civil engineering services for the design of the Replacement Drainage System, **Phase 1 in the West Beach Road area..**

BACKGROUND:

It is our understanding that the township desires to allot approximately \$65,000 toward the replacement of failing drainage system in the Collings Lakes area of Buena Vista Township in the West Beach Road area. We will provide construction estimates and options upon the completion of the survey phase.

SURVEYING SERVICES:

Schaeffer Nassar Scheidegg Consulting Engineers, LLC will provide the following surveying services:

- a) Provide survey and topographic survey in the area to determine grading and design of the stormwater management system.
- b) Establish horizontal and vertical control points along project limits for future construction layout.

ENGINEERING SERVICES:

- 1) Preparation of engineered design plans for the reconstruction of the failing drainage system that includes:
 - a) Preparation of construction plans, including grading, soil erosion control, details and stormwater management if required
 - b) Preparation of construction specifications in accordance with applicable NJDOT guidelines.
 - c) Preparation of public bidding forms.
 - d) Advertise for bidders
 - e) Evaluate resulting bids and present recommendations to the township

2) Preparation of applications for submission to the following agencies, if applicable:

- a) NJ Pinelands Commission
- b) Cape-Atlantic Soil Conservation District.

3) Plan printing as required for initial agency submission plus three sets of plans for the client are included in this proposal.
